Arms:

**For optional fingers, include puff stitches. Otherwise, ignore the slip stitches and puff stitches and just do single crochet stitches.

Puff stitch:
Do 3 incomplete double crochet stitches (all but the last step of the double crochet stitch) into the same stitch.   You should have 4 loops on your hook at this point. Yarn over and draw the yarn through all 4 loops to complete. Make sure to tighten this stitch as much as you can before continuing to prevent holes from forming.

8. Sc around (18)
9. Sc 5, inc, sc 6, inc, sc 5 (20)
10. FO

(The FO point should be in the midline of the underside of the arm.)

Feet:

**For the puff stitches this time, I wanted the toes to be larger so I added one more stitch. Do 4 incomplete double crochet stitches (all but the last step of the double crochet stitch) into the same stitch.   You should have 5 loops on your hook at this point. Yarn over and draw the yarn through all 5 loops to complete.
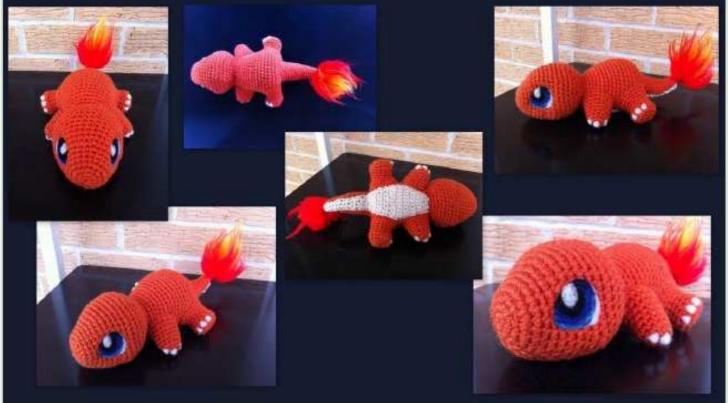

Same thing applies, toes are optional! Substitute puffs and slip stitches with single crochet stitches if you don't want toes (but who can resist that!).

10. [Sc 6, inc] around (24)
11. FO

(His feet should be feet shaped so make sure to keep that in mind when attaching and stuffing!)

Tail:

**Be sure to stuff as you go along. Stuff more at the tip of the tail (rounds 1-8) to give it the round shape. Do not overstuff in the middle portion though or else you will have trouble wrapping and sewing/shaping the tail.

1. Magic ring: 6
2. Inc around (12)
3. Sc around (12)
4. [Sc 3, inc] around (15)

22. Sc around (15)
23. [Sc 3, dec] (12)
24. Sc around (12)
25. FO

**Note on assembling: When sewing on his head and limbs, I lay everything on a flat surface because I wanted that "belly-flopping" shape. The head and limbs all ended up being part way between the yellow and brown of the shell. Don't worry about this because the white rim will end up bordering along the shell and limbs and help to give it a nice shape and finish.
For the white rim around the shell, I single crocheted along a long chain and sewed this strip along the edges of the shell and body parts. The length will probably vary depending on how you've put your Squirtle together. I assembled everything first before making the rim. I ended up needing about 85 stitches in length. Before addition of shell rim: **fav.me/d73l0rb

**Shell details and eyes are needle-felted, though yarn/thread and cut-out felt should work fine!

**The flame at the end of the tail was made by brushing out yarn. I was trying to figure out how to make the flames look more "flame-like" and ended up using this

tutorial: by   as a guide. I ironed the brushed out yarn instead of using a hair straightener since I didn't have one, but it seemed to do the trick!

**The eyes and nails are needle felted though I'm sure cut out felt will also work!
